Swing Trading

The power of Proactive Trading

We have been doing this for over 10 years.

Prior to 2008 we were using correlated stocks (not ETFs)

Since QID and QLD came to market we have been able to record our performance

Prior to QID/QLD we offered 4-5 stocks to go along with our timing; that was not measurable.

Annual return %	2008	2009	2010	2011	2012 YTD	Inception 10.1.08
	21.60%	24.57%	-8.20%	22.93%	11.09%	97.29%
S&P return	2008	2009	2010	2011	2012 YTD	S&P Since 10.1.08
	-22.20%	19.67%	11.00%	-1.12%	13.62%	24.97%
